DETAILED ACTION

1. This action is responsive the applicant's communication filed on 08/07/2006.
2. Claims 1-28 have been canceled, and claims 29-57 have been added as new claims.
3. Claims 29-57 are pending and presented for examination.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 29-57 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is insufficient antecedent basis for the limitation "the cluster" recites in line 10 of claim 29, in lines 2 and 3 of claim 35.

There is insufficient antecedent basis for the limitation "the clusters" recites in line 4 of claim 43, and in line 7 of claim 56.

There is insufficient antecedent basis for the limitation "the cluster in question" recites in line 6 of claim 43, and in line 9 of claim 56.

Claim 34 recites the limitation "the next entry" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 41 recites the limitation "the location information" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 48 recites the limitation "the first entry" in line 2, the limitation "the next entry" in line 3, and the limitation "the first entry" in line 4. There is insufficient antecedent basis for this limitation in the claim.

6. Claims 29-57 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "possible" in claim 29 lines 10 and 11, claim 43 lines 7 and 9, claim 55, lines 13 and 15, claim 56 lines 10 and 12, is a relative and vague term, which renders the claim indefinite. The term "possible" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonable appraised of the scope of the invention. The limitation "possible" is indefinite due to the variety meanings of the word. Therefore, given "possible" any of the common and broadest definitions it is unclear to the Examiner what the limitation "possible" is intended to cover in the claim.

Any claim not directly rejected on 35 U.S.C. 112, second paragraph stands rejected due to its dependency to their base claims.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2165

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
